Janet and I started Pair-A-Dice Travel on October 1, 1993.

Our mission is to provide inexpensive and **FREE** casino get-a-ways to qualified casino players.

Since then we have seen our company grow to be one of the largest independent casino representatives in the US, with services to over 50 casino properties.

We believe part of our success has been based on helping customers get the most their play affords.

Using a player card, also known as known as "being rated", Customers enjoy casino complimentarys like food, beverages, **and discounts/complimentary trips**. These complimentarys are based on recorded play level (Play level is determined by length of play and average wager).

Because of our casino relationships, Pair-A-Dice customers can visit new properties and enjoy casino comps/discounts even before they begin play.

Our customers can now choose from over 50 casino properties in US, Caribbean and 3 cruise lines.

We appreciate you. Thank you. -Ed

How Does Comping Work?

The complimentary formula varies on games played and from casino-to-casino. But the concept is the same at all casinos. Casinos set their own complimentary requirements for food, rooms, beverages, shows, events and trips.

Complimentaries for table players are based on average wager, time and house advantage.

Machine players mainly are based on dollars cycled thru the machine and house percentage.

The number that is generated while you play is called a "Theoretical". Theoreticals are used to determine upfront complimentaries, back-end complimentaries and Reward Credits.

Poker room play is not part of casinos complimentary program.

This is our sister company that has packages to casino, non-casino, all-inclusives and cruise getaway. We can plan your next vacation anywhere in the world! From relaxing beach getaways to the bright lights of Las Vegas. We offer cruise packages on Norwegian Cruise Line, Royal Caribbean International, or Celebrity Cruises as well.

Don't Gamble With Your Ratings...Follow These Helpful Tips!

Table Players

1. The most important thing you can do to have better table ratings is by either a) establishing and using a line of credit or b) depositing money in the cage and draw markers at the table.
2. Ask the Pit Boss about your rating while you play and before you leave the table. Ask about hours played, average bet and win/loss. We have seen Pit Bosses adjust records (especially if the dealer agrees with the player)
3. Cash out before you leave the table (change small chips for larger ones.) The Pit Boss will note this on the record. This gives them another reason to look at your rating card and has proven more accuracy of the win/loss.

Machine Players

1. Insert your card and leave it in while you play in to the reader and make sure the reader says accepted.
2. Get more than one card if you play more than one machine. You can get additional cards at the Total Rewards Desk.

ALWAYS REMEMBER TO USE YOUR CARD AT ALL TIMES!

Earn Reward Credits every time you use your card! If you play 5 min. or 5 hours, \$5 or \$500, always use your card! Earn credit for every dollar played.

Charter Trips

Large charter flights are 120 to 150 seat passenger jets. These are usually the least expensive to operate and our customer's best value. Large Charters complimentary requirements are the lowest.

VIP charters are either a 30-Seat turbo prop or a 30-seat jet. The complimentary criteria for VIP charters are higher because seat costs are higher.

An escort from our office travels with charters to make sure all your travel arrangements run smoothly.

Group Trips

VIP Group trips are block seating on commercial air carriers. The casino's complimentary requirements are higher than charters.

Individual Trips

Travel when you want! We book everything from just rooms to complete get-a-ways (air, transfers and rooms). The upfront complimentary requirements for airfare, rooms and transfers are higher than charters and group trips.

Note to customers: Our charter, group or individual get-a-ways are a terrific value. They are always less than casino players can do on their own.
